

## BIS Annual Meeting

### Monocytes and macrophages in inflammatory diseases and cancer

Friday November 25<sup>th</sup> 2016

Salle Dupréel, ULB Campus du Solbosh, Building S, 1st floor  
Avenue Jeanne 44, 1050 Brussels

9h00	Registration, morning coffee and display of posters
9h45	Welcome address by Jo Van Ginderachter (Host of the meeting) and Oberdan Leo (President of BIS)
10h00	<b>Marco Prinz</b> (University of Freiburg, Germany) "Origin and function of macrophages in the central nervous system"
10h30	<b>Martin Guilliams</b> (VIB, UGent) "Cellular Origin and Functional Specialization of Tissue-resident Macrophages"
11h00	<b>Karin de Visser</b> (Netherlands Cancer Institute, Amsterdam, The Netherlands) "Cancer-induced systemic inflammation promotes breast cancer metastasis"
11h30	<b>Jeroen Bogie</b> (Universiteit Hasselt) "Collectin sub-family member 12 is a novel receptor involved in the uptake of myelin by phagocytes"
11h45	<b>Aurélie Detavernier</b> (Université Libre de Bruxelles) "Regulation of interleukin-27 expression in the context of infection"
12h00	<b>Pieter Goossens</b> (Centre d'Immunologie de Marseille-Luminy, France) "Depletion of membrane cholesterol in tumor-associated macrophages promotes their M2 polarization"
12h15	Lunch - Poster session - Visit of exhibitor stands
14h15	General Assembly of the Belgian Immunological Society
14h30	<b>Catherine Sabatel</b> (Université de Liège) "Bacterial CpG-DNA prevents asthma by expanding lung interstitial regulatory macrophages from local and splenic reservoir monocytes"
14h45	<b>Sofie Voet</b> (VIB, UGent) "A20 critically controls microglia activation in CNS inflammation"
15h00	<b>Kristiaan Wouters</b> (MUMC, Maastricht, The Netherlands) "Adipose tissue macrophages induce hepatic neutrophil recruitment and macrophage accumulation in mice"
15h15	<b>Menno de Winther</b> (Academic Medical Center, Amsterdam, The Netherlands) "Epigenetic enzymes regulating macrophage activation programs: relevance for cardiovascular disease"
15h45	<b>Guy Boeckstaens</b> (KULeuven) "Neuromodulation of the immune system"
16h15	<b>Jean-Paul Coutelier</b> – (Université Catholique de Louvain) "Effect of interferon-modulated macrophage and dendritic cell responses in mouse models of diseases concomitant to a viral infection"
16h45	Award of the best two posters

Gold sponsors: Bio-Connect Diagnostics/Life Sciences, Merck

Silver sponsors: Affymetrix eBioscience, Analis, Becton Dickinson, Bio-Rad Laboratories, Bio-Techne, Enzo Life Sciences, Filter Service, ImTec Diagnostics, Perkin Elmer, STEMCELL Technologies, VWR, Westburg

**Venue:** Université Libre de Bruxelles (ULB)  
Solbosch campus – Building S, 1<sup>st</sup> floor – Salle Dupréel  
Avenue Jeanne – Johannalaan 44  
1050 Brussels (Ixelles – Elsene)  
Belgium

**ULB Campus du Solbosch**

**Bâtiment S**  
**Institut de sociologie**  
**Salle Dupréel (1<sup>st</sup> floor)**

**ULB Solbosch campus - acces**
